FISHERIES MANAGEMENT

Nordic contributions to the ongoing debate on EU's Common Fisheries Policy

The Nordic Council of Ministers (NCM) is active in the ongoing debate on the CFP. Three reports will be issued soon.

In the Nordic countries you will find at great variety of solutions to core elements in fisheries management. Since the launching of the green paper in April NCM has arranged a conference, one seminar and is issuing a report on Nordic experiences in fisheries management.

REPORT

Nordic experience of fisheries management – seen in relation to the reform of the EU Common Fisheries Policy.

A group of Nordic researchers has prepared this report which includes Nordic solutions and experiences in fisheries management. The report emphasizes elements in management with relevance to the reform of the EU's common fisheries policy. Three themes in management are chosen to put forward Nordic experiences: "Right based management", "Co-Management" and "Discard".

The report will be available on 19 Nov and can be downloaded from <http://www.norden.org/en/publications/publications/2009-579>

CONFERENCE
